ANNOUNCEMENTS FOR
1922-1923

DILLON, MONTANA
MAY, 1922

Application for entrance as second class matter made at the postoffice at Dillon, Montana, under the Act of Congress, August 24, 1912.

THE UNIVERSITY OF MONTANA

EDWARD C. ELLIOTT, Chancellor of the University

The University of Montana is constituted under the provisions of Chapter 92 of the Laws of the Thirteenth Legislative Assembly, approved March 14, 1913 (effective July 1, 1913).

The general control and supervision of the University are vested in the State Board of Education. The Chancellor of the University is the chief officer. For each of the component institutions there is a local executive board.

Montana State Board of Education

J. M. DIXON, Governor.....Ex-Officio, President
W. D. RANKIN, Attorney General.....Ex-Officio
MAY TRUMPER, Supt. of Public Instruction.....Ex-Officio, Secretary

A. J. VIOLETTE, Missoula.....(1922)
SYDNEY SANNER, Butte.....(1922)
C. H. FOOT, Kalispell.....(1923)
R. C. LINE, Columbus.....(1923)
W. SPAIN, Belgrade.....(1924)
J. W. FREEMAN, Great Falls(1924)
JOHN DIETRICH, Helena.....(1925)
FRANK ELIEL, Dillon.....(1925)

The University comprises the following institutions, schools and departments:

The State University, Missoula

Established February 17, 1893, and consisting of

The College of Arts and Sciences
The School of Law
The School of Pharmacy
The School of Forestry
The School of Journalism
The School of Music
The School of Business Administration
The School of Education
The Summer Quarter
The Biological Station (Flathead Lake)
The Public Service Division
The Graduate Division

CHARLES H. CLAPP, President

The State College of Agriculture and Mechanic Arts, Bozeman

Established February 16, 1893, and consisting of

The College of Agriculture
The College of Engineering
The College of Applied Science
The College of Household and Industrial Arts
The School of Music
The Summer Quarter
The Agricultural Experiment Station
The Agricultural Extension Service
The Secondary School of Agriculture

ALFRED ATKINSON, President

The State School of Mines, Butte

Established February 17, 1893

Course in Mining Engineering
Course in Metallurgical Engineering
Bureau of Mines and Metallurgy

GEORGE W. CRAVEN, President

The State Normal College, Dillon

Established February 23, 1893, and consisting of

The Summer Quarter
The Two-years Course
The Teachers' Service Division

SHELDON E. DAVIS, President

ACADEMIC CALENDAR, 1922-1923

1922 **Spring Quarter**

March 27, Monday.....Registration day.
March 28, Tuesday.....Instruction begins.
May 30, Tuesday.....Memorial Day—Holiday.
June 10, Saturday.....Annual Alumni dinner.
June 14, Wednesday.....Commencement.
June 14, 15, Wed., Thurs.....Examinations.
June 15, Thursday (noon).....Quarter ends.

Summer Session

June 19, Monday.....Registration day.
June 20, Tuesday.....Instruction begins.
July 4, Tuesday.....Independence Day—Holiday.
August 16, Wednesday.....Commencement.
August 17, 18, Thurs., Fri.....Examinations.
August 18, Friday (noon).....Summer Session ends.

Autumn Quarter

September 22, Friday.....Faculty meeting.
September 25, Monday.....Registration day.
September 26, Tuesday.....Instruction begins.
November 30, Thursday.....Thanksgiving—Holiday.
December 20, Wednesday.....Commencement.
December 20, 21, Wed., Thurs.....Examinations.
December 21, Thursday (noon).....Quarter ends.

1923 **Winter Quarter**

January 2, Tuesday.....Registration day.
January 3, Wednesday.....Instruction begins.
March 21, Wednesday.....Commencement.
March 21, 22, Wed., Thurs.....Examinations.
March 22, Thursday (noon).....Quarter ends.

Spring Quarter

March 26, Monday.....Registration day.
March 27, Tuesday.....Instruction begins.
May 30, Wednesday.....Memorial Day—Holiday.
June 9, Saturday.....Annual Alumni dinner.
June 14, Thursday.....Commencement.
June 13, 14, Wed., Thurs.....Examinations.
June 14, Thursday (noon).....Quarter ends.

Summer Session

June 18, Monday.....Registration day.
June 19, Tuesday.....Instruction begins.
July 4, Wednesday.....Independence Day—Holiday.
August 15, Wednesday.....Commencement.
August 16, 17, Thurs., Fri.....Examinations.
August 17, Friday(noon).....Summer Session ends.

Autumn Quarter

September 21, Friday.....Faculty meeting.
September 24, Monday.....Registration day.
September 25, Tuesday.....Instruction begins.
November 29, Thursday.....Thanksgiving—Holiday.
December 19, Wednesday.....Commencement.
December 19, 20, Wed., Thurs.....Examinations.
December 20, Thursday (noon).....Quarter ends.

An act of the Seventeenth Legislative Assembly provides that schools shall not be dismissed on the following days, but appropriate exercises, as part of the day's program, shall be held in each school when in session: February 12, (Lincoln's birthday); February 22, (Washington's birthday); second Tuesday of May (Arbor day); June 14 (Flag day); October 12 (Columbus day); November 1 (Pioneer day); November 11 (Armistice day).

** Graduate of a normal school.

The University of Montana

HISTORICAL SKETCH

An Act of Congress, approved February 18th, 1881, dedicated for university purposes in Montana seventy-two sections of the public domain. The Enabling Act, providing for the organization of the State of Montana and its admission to the Union, February 22nd, 1889, confirmed this grant to the State and added 100,000 acres for a school of mines, 100,000 for normal schools, and 140,000 acres for an agricultural college.

The Third Legislative Assembly of the State of Montana, in February, 1893, enacted laws providing for the establishment of all these institutions, and locating the State University at Missoula, the State School of Mines at Butte, the State Normal School at Dillon, and the State Agricultural College at Bozeman.

As the lands granted for higher educational purposes, together with timber or stone thereon, have been sold, the proceeds have gone into permanent funds invested for the various institutions, and the interest on these funds, together with the rentals of unsold lands, has been used for the support of the respective institutions. These maintenance resources have been supplemented with appropriations made each subsequent biennium by the Legislative Assembly, which also provided for the erection of buildings at the expense of the State.

These institutions were administered independently by the local executive boards for some years under the general supervision of the State Board of Education. By a law of 1909 the powers of the local boards were more closely defined and the direction of the State Board of Education made more effective. By the enactment of Chapter 92 of the Laws of the Thirteenth Legislative Assembly in 1913 the four institutions were combined into the University of Montana under the executive control of an officer whose title is Chancellor. In October, 1915, the State Board of Education appointed Edward C. Elliott, then of the University of Wisconsin, as the first Chancellor of the University of Montana. He assumed his duties February 1st, 1916

At the general election in November, 1920, the voters of the state, by a large majority, enacted, through the popular initiative, two measures for the financial support and development of the University of Montana. The first of these measures levies a tax of one and one-half mills on all of the taxable property in the state annually for ten years for the maintenance of the University of Montana; the second provides for a state bond issue, from the proceeds of which three and three-quarters million dollars become available for the erection and equipment of buildings at the several institutions of the University of Montana.

The State Normal College

HISTORICAL SKETCH

The Act of Congress under which the State of Montana was admitted to the union set aside one hundred thousand acres of the public domain for the establishment and support of a State Normal School. In pursuance of the same plan the Legislative Assembly of Montana established the State Normal College in 1893. The committee having in charge the erection of a building began work in 1893. The Legislature of 1897 created an Executive Board which selected a president and faculty, the first session of the school opening September 7, 1897.

By an act of the Eighth Legislative Assembly, which became a law February 25th, 1903, the name of the institution was changed to the Montana State Normal College.

PURPOSE AND SCOPE

The State Normal College prepares teachers for the public schools of Montana. It accomplishes its work through professional courses, directed observation of expert teaching, and actual teaching under expert supervision in a public school. The two years curricula permit specialization in kindergarten, primary, intermediate, grammar grade or rural work. The Normal College diploma authorizes its holder to teach in any public school in the state for six years without examination. After twenty-seven months of successful experience in Montana, graduates are granted life certificates by the State Board of Education. A student who completes a third year of Normal College work has opportunity for greater specialization and is better prepared for junior high school teaching.

Graduates of the two years curriculum are granted junior standing in the State University. Students who earn credit after receiving the diploma are granted hour for hour credit up to a maximum of one year in subjects of college or university character. Graduates of either the two or three years curricula who transfer to the State University must satisfy restricted elective and major department requirements; they are exempt from the required work in English composition and physical education.

The Normal College offers no certificate at the close of the first year, but students who find it necessary to teach before earning a diploma are able to secure a second grade certificate valid in the State for two years by completing courses in the required subjects. According to law, Normal College (University of Montana) grades in such subjects are accepted upon certificates in lieu of grades earned by examination. Certificates acquired in this way represent no loss of time since all work done is credited toward a diploma.

BUILDINGS AND CAMPUS

The Normal College buildings are well constructed and arranged. The main building with its class rooms, library, laboratories, gymnasium, and auditorium, is situated less than a hundred yards from the Residence Halls, in which nearly all out-of-town students live. These halls, three in number, and a dining hall, provide comfortable home life for women students and excellent accommodations at cost. The campus, upon a slight elevation at the edge of Dillon, is of ample size and well supplied with shade trees.

SURROUNDINGS

The State Normal College is located at Dillon, in Beaverhead County on the Oregon Short Line Railroad, seventy miles south of Butte. Dillon, altitude 5100 feet, is a modern city of about three thousand poplation. It is a city of trees and homes. Facilities for recreation are excellent. Excursions and picnic parties find interesting objectives among the mountains, canyons, and forests in the vicinity.

THE TRAINING SCHOOLS

The public schools of Dillon, maintained jointly by the College and the local school board, constitute the Training School. The College supplies a superintendent, supervisors, and part of the salaries of sixteen training instructors.

The Training School buildings, erected and equipped by the Dillon School District, at a cost of nearly $300,000, are conveniently located and admirably adapted to their purpose. The new building, first ready for occupancy in September, 1921, is a model of modern school architecture and equipment.

The Montana state course of study, supplemented and adapted by a strong teaching staff, provided with liberal equipment, is the basis of the Training School curriculum. Student teachers, after thorough preliminary training and a preparatory course in observation and participation, are made responsible for results in the actual schoolroom. Conducted on the same general plan is a rural training school in charge of a training instructor and supervised by the director of rural training.

EXPENSES OF STUDENTS

FEES

A registration fee of ten dollars is charged to all attending the Normal College: this entitles a student to attend any or all of the first three quarters. A separate fee of ten dollars is charged for attending all or part of the summer quarter.

Students in manual training and home economics pay for materials used. Students in home economics pay a fee of three dollars. Chemistry students pay a fee of two dollars for material consumed

and are required to pay for breakage of apparatus. A fee of one dollar is charged for a special examination. A statement of fees for private music lessons is found on page 34.

DEPOSITS

A library deposit of one dollar is required; this is returned, less fines incurred. Key deposits of fifty cents are required of those who use locker keys and of all who are issued room keys in the residence halls. These deposits are returnable upon presentation of keys at the close of the year, quarter or term.

All deposits and refundable fees not claimed within thirty days from the close of the quarter or term for which they were paid revert to the special fund of the State Normal College.

BOARD AND LODGING

The Residence Halls supply comfortable and convenient accommodations for more than two hundred women. The new hall is attractively furnished and each room is provided with hot and cold water. Tastefully furnished reception rooms, a recreation hall, a laundry, and a sewing room are provided for the use of students. The new dining hall and the new recreation room greatly add to the comfort and convenience of the students.

All rooms in the new hall are equipped with single beds; single beds may be secured in the older halls upon payment of one dollar a month per person in addition to the schedule charge for rooms. All rooms are large enough to accommodate two persons comfortably, and no reservation for one occupant is made. With the exception of towels and dresser scarfs, all rooms are completely furnished. The schedule of room charges follows:

In the new residence hall	$7.75 per month
Corner rooms in the older halls	$6.25 per month
Inner rooms with two windows	$5.75 per month
Inner rooms with one window	$5.25 per month

The charge for table board is $22.00 per month. Since board is provided at actual cost, and tables must be arranged for regular boarders, no deductions are made for absences at week ends or vacations except at the Christmas recess. Board and room are payable by the month in advance.

A deposit of five dollars is required to reserve a room in the residence halls. For this amount a room will be held two weeks. When the room is vacated this deposit will be returned to the student, if room and furniture have not been injured more than is to be expected in ordinary wear and tear; otherwise part or all of the amount will be retained for repairs and replacements. Room deposits will be returned to prospective students who have made the payment in order to insure reservation and later find it impossible to attend; in all such cases the College must be notified

within three weeks so that rooms may be let to other applicants for reservations.

Young men by rooming in private homes and boarding at the College dining room, may keep their living expenses within about the same limits as those indicated above.

REFUND OF RAILROAD FARE

In accordance with the provisions of Chapter 123, Session Laws of 1917, and under regulations established by the State Board of Education, railway fare in excess of five dollars actually paid by any student for a round trip between his Montana home and any institution of the University of Montana, once each year, will be refunded. Students must present receipts for the fare thus paid.

REQUIREMENTS FOR ADMISSION

Applicants for admission must be at least sixteen years of age and must present evidence of good moral character.

The completion of a high school or preparatory course of four years is the standard for regular entrance. This must include at least fifteen units of work. A unit is the amount of work represented by the successful completion of one subject pursued for a school year of not less than thirty-six weeks with five recitations per week each recitation period being not less than forty-five minutes net. Two periods of laboratory, shop, or drawing work count as one recitation. The required units must include three units in English composition and literature and one in American history and government. Students are advised to include also two units in mathematics and one in science.

Graduates of any Montana high school or academy fully accredited by the State Board of Education, or of any high school or academy in another state accredited by the North Central Association, are admitted to regular standing by the presentation of an official certificate of graduation.

Graduates of any other secondary schools outside of Montana are admitted on the presentation of an official certificate of graduation, if the school maintains on the basis of regular inspection, accredited relationship with the state university or other university within the state included in the membership of the Association of American Universities.

Any other person must, in order to be admitted to regular standing, pass a satisfactory examination on not less than fifteen units of secondary school work; provided, that any graduate of a Montana high school accredited by the State Board of Education for the work of only one, two, or three years, may receive entrance credit without examination upon such work as has been successfully completed in such accredited courses, as shown by official certificates.

Those who expect to take entrance examinations must notify the Registrar in advance, stating what subjects they desire to offer by examination. Such examinations will be conducted upon request Friday and Saturday of the opening week of each quarter or term.

ADMISSION FROM OTHER COLLEGES AND UNIVERSITIES

Students entering from other schools of college rank must furnish evidence of honorable dismissal. Upon presentation of official records from institutions of approved standards advanced standing will be given in so far as courses completed correspond to those required or accepted by the Normal College.

ADVANCED STANDING BY EXAMINATION

Teachers of experience who have taken work in collegiate institutions from which it is now impossible to secure adequate records, or who feel that through long teaching experience and private study the content of required college courses has been mastered may be given opportunity to secure advanced standing by examination. Such examinations must be taken before completion in the Normal College of advanced courses in the same subject, and no examination for advanced standing may be taken after an attendance of three quarters. Questions used and papers written by applicants for advanced standing will be filed and preserved as part of the student's record. Upon request examinations for advanced standing will be conducted Friday and Saturday of the opening week of each quarter or term.

CONDITIONAL ADMISSION

The entrance requirement of graduation from a four years accredited high school course, including at least fifteen units of credit, may be modified in individual cases by permitting the conditional admission of a student if he has at least fifteen entrance units and has been in regular attendance in a fully accredited high school for four years. To acquire regular standing such a student must present a total of sixteen entrance units. He must make up the number lacking in one year from the date of his first registration.

SPECIAL STUDENTS

Students eighteen years of age or over may be admitted without the usual entrance units, as special students if they can meet the requirements of the accompanying teachers certificate standards.

* These fifteen units must include three units of English composition and literature and one unit of American history and government. No less than one full unit in any subject will be accepted and a student offering foreign language as a part of his preparation must present at least two units in one language.

TEACHERS CERTIFICATE STANDARDS

For the information and convenience of teachers, the certificate credit standards and regulations applied in all Montana schools are here published. A definition of the twelve weeks of normal training without which "no person shall be given a regular certificate to teach" after July 1, 1920, is also given.

Standards for credits accepted on teachers' certificates established for summer schools and the institutions of the University of Montana and jointly adopted by the executives of the University of Montana and the state board of educational examiners on January, 16, 1920, to be effective on and after June 7, 1920, as amended by the state board of educational examiners on March 12, 1921. No certificate credits obtained prior to that date will be altered by these provisions:

A. Regulations for those seeking credits on certificate subjects, but not seeking to meet the legal requirements for twelve weeks of normal training as set forth in Chapter 114, Session Laws of 1917:

(1) Before taking courses accepted for credit on second grade teachers' certificates at Montana summer schools and at any of the institutions of the University of Montana, candidates must have had a minimum of two years of high school training or its equivalent.

(2) Before taking courses accepted for credit on first grade teachers' certificates at Montana summer schools and at any of the institutions of the University of Montana, candidates must have had a minimum of three years of high school training or its equivalent.

(3) Before taking courses accepted for credit on professional grade certificates, candidates must be graduates from an accredited high school or have had an equivalent preparation.

(4) "Equivalent preparation" shall be determined in the several institutions of the University of Montana by the administrative machinery which now exists for the determination of entrance and advanced standing credits of all students therein; but teaching experience shall not be counted as academic preparation. In the summer schools not under the control of the University of Montana "equivalent preparation" shall be determined under rules and regulations fixed by the superintendent of public instruction.

(5) Certificate subjects shall be measured in terms of hours of classroom work of approximately 60 minutes each with an average preparation of one hour and 30 minutes. In summer schools under the jurisdiction of the superintendent of public instruction subjects other than certificate subjects shall meet the same requirements. The minimum number of classroom hours for each certificate subject shall be as follows:

Reading	45	Agriculture	45
Writing	15	American literature	45
Arithmetic	45	Physical geography	45
Spelling	15	Elementary psychology	45
Grammar	45	School management	30
Geography	45	School law	15
Physiology and hygiene	30	Educational psychology	45
U. S. History	45	Principles of education	45
Civics	45	English literature	45
Theory and art	45	History of education	45
		General History	45

(6) Fifteen or sixteen hours of classroom work will constitute a normal weekly program. Students of exceptional ability may with the approval of the faculty be permitted to carry a maximum of twenty hours of class work per week.

Execssive class registration which necessarily limits the quality of the work may be deemed sufficient ground for withholding certificate credit. No certificate credit will be recognized if earned in a class enrolling more than forty students unless it can be shown that such class was conducted by a teacher of superior ability and under favorable conditions.

(7) The same standards shall also apply to the credits obtained through correspondence courses which are completed after June 7, 1920.

(The above standards apply only to the submission of credits in lieu of examination. Any one who has had two years of high school work and twelve weeks of normal training may write upon an examination for any of the above grades of certificates).

B. Standards for those seeking to meet the legal requirement of twelve weeks of normal training as set forth in Chapter 114, Session Laws of 1917.

(1) Students must have a minimum academic preparation of two years of high school work or its equivalent as stipulated in Chapter 114, Session Laws, 1917, Section 5.

(2) Any student carrying and passing in 135 classroom hours of work will be considered as having met the requirements of twelve weeks of normal training. One classroom hour of credit shall be interpreted to mean two and one-half hours in class and preparation as fixed under A (5) above.

(3) Such students shall also conform to the other standards set forth in A (5) and (6) above.

(4) Two-thirds of the work in the twelve weeks of normal training shall be in the above certificate subjects.

(5 Life certificate subjects may be considered as certificate subjects for meeting the conditions in (4) above.

REQUIREMENTS FOR GRADUATION

Two years of three quarters each are required to complete the course. The accompanying outline indicates the subjects in which courses must be completed. Ninety-six credits for the diploma or one hundred forty for the three year certificate are the quantitative requirements. A year of resident study is required of all candidates for the diploma regardless of the amount of advanced standing with which they enter.

First Year		Second Year	
Arithmetic	4 cr.	School administration	4 cr.
Grammar	4 cr.	Observation	2 cr.
Reading—literature	4 cr.	Method	4 cr.
American history	4 cr.	Modern education	3 cr.
American government	4 cr.	Economics	3 cr.
Geography	4 cr.	Directed teaching	8 cr.
Drawing	4 cr.	Elective	24 cr.
Psychology	4 cr.		
Principles of education	4 cr.		
Composition	3 cr.		
Child hygiene	3 cr.		
Music	3 cr.		
Penmanship	1 cr.		
Spelling	1 cr.		
Library economy	1 cr.		
Total	48 cr.	Total	48 cr.

RESTRICTIONS UPON ELECTIVES

All students are required to earn two credits in physical education, each quarter being given one-half of one credit. Students whose high school course included (a) but one unit of history elect not less than six credits in the College, (b) but one unit in science, elect six credits in sciences not pursued in the high school. Women whose high school course included no home economics elect six credits in home economics. Men whose high school course included no manual training, elect six credits in manual training or drawing.

EXEMPTIONS

The purpose of the Normal College curriculum is to give each student maximum professional development rather than to insure a uniform type of teacher. Following this ideal, students are systematically exempted from required courses whenever it appears that a considerable proportion of their content might be unprofitable repetition of previous experience or training. In lieu of such exemptions, an equal amount of elective work must be completed. Teacher-training high school graduates who establish an excellent record in college classes are exempted from a limited number of courses; students having completed a course in economics are exempted from economics; teachers of successful experience in closely supervised

school systems may be exempted from elementary courses in the subjects they have taught and carry advanced work in the same or related fields. In the same way, experienced teachers, after demonstrating ability and probable limit of profitable contact with the training school, may be excused from further directed teaching and permitted to elect other work.

REGISTRATION AND STANDARDS

Normal registration is for sixteen credits. Successsfully carried during a twelve weeks quarter, this means completion of sixteen credits. Only students who have demonstrated superior ability may undertake more than this amont of work. Classifying for more than a normal program requires a "petition for excess work," indicating previous record, reason for attempting additional work and a health statement from the school nurse.

Students are expected to register the first day of the quarter or term; late entrance is usually considered sufficient ground for reduction of registration or credit in proportion to the number of days the student has been out of class.

Students arriving too late to attend the first meeting of their classes will be charged a late entrance fee of one dollar for each day of regular instruction missed, provided no such fee shall exceed five dollars. This fee is not charged when reasonable cause for late entrance is established.

SCHOLARSHIP STANDARDS

Grades are reported in per cents. The passing mark is 75. A grade of less than 75 is recorded F (failure). "Failure" indicates no credit; the subject must be taken again. D, "Dropped," is reported when a student withdraws from class without completing enough work to be worthy of credit or qualitative estimate. "Inc." (incomplete), is reported when a student has completed satisfactorily an insufficient amount of work to earn full credit. For every "Incomplete" grade reported, a special "Report of Incomplete Work" card is filed in the office explaining fully what must be done in order to complete the course. Incomplete grades become D twelve months after the student leaves school, unless work is completed.

Honor points may be earned according to the following scale:

Grade	Honor Points
75— 79	No points
80— 84	One point per credit
85—94	Two points per credit
95—100	Three points per credit

The number of honor points required for graduation must be equal to the number of credits earned in the Normal College.

The candidates for graduation constituting the twenty per cent with the highest number of honor points per credit made in attend-

ance at this institution are accorded special recognition as honor students.

Students in regular attendance who fail to complete satisfactorily one-half of a normal credit program during any quarter, are not eligible to enter for the work of the next quarter unless reinstated by the faculty. Students who are considered physically, morally or temperamentally unfit to teach, will not be recommended by the faculty for a diploma.

CONDUCT AND SCHOLARSHIP REPORTS

All who enroll as students are expected to regulate their personal and social conduct in conformity with college and residence hall requirements. Those who are not able to deport themselves in accordance with the restrictions which experience has found essential to the well-being of the institution, can hardly be rated as promising prospective members of the teaching profession, or worthy of recommendation. It is expected that students will make school work their first interest rather than recreation, however, innocent and valuable. Reports of each student's work are sent to parents at the close of each quarter. The residence halls are equipped with local and long distance telephones; parents can always communicate with students in cases of emergency.

MISCELLANEOUS INFORMATION

STUDENT SELF HELP

Energetic students of limited means are usually able to earn part, or in some cases all, of their expenses while attending the Normal College. There are opportunities for earning room and board at the residence halls, and for doing housework in private families. In finding work for students, the committee gives preference to those who are most capable and in greatest need of help. Young men or women who must spent a considerable portion of their energy in earning their way through school should not expect to carry a full program of studies, and to participate largely in student activities.

ATHLETICS

The athletic field and campus afford opportunity for tennis, baseball, track work and sports of like character. Four tennis courts are provided. Several intercollegiate contests were conducted during the year. Each year a tennis tournament and an interclass basketball tournament are held. A May festival supplies opportunity for a public exhibition of the work accomplished in the gymnasium during the year.

GLEE CLUB AND ORCHESTRA

Under direction of the music department a glee club is conducted. Glee club and chorus work may be elected by all who can

sing. Those who have orchestral instruments are urged to bring them.

ENTERTAINMENT

Many functions of an informal character are given for social development and diversion. Recitals are regularly given by the music department and amateur performances are staged by various student organizations. Out of town talent is brought to the college whenever possible.

PUBLICATIONS

The University of Montana Bulletin, Normal College Series, is issued quarterly. The annual catalog, announcement of the summer quarter, and the Teachers' Service Division are included in this series. The Normal College Index is a monthly professional periodical for grade and rural school teachers.

The "Chinook," under the direction of the Senior class, is an annual publication representing lighter phases of school life and sentiment.

LIBRARY

The library contains about twelve thousand bound volumes and a considerable number of pamphlets. Books have been selected and catalogued with a view to the professional function of the school. The reading room is well supplied with standard newspapers and periodicals, including all literary, scientific and educational magazines of value in training or broadening the outlook of Normal College students. The open shelf plan is used and books may be withdrawn for home use. The Public Library of Dillon, also used by students of the College, is exceptionally well selected.

RECOMMENDATION OF TEACHERS

The recommendation of teachers for public school positions is carried on by a committee according to a thoroughly organized plan by which unqualified approval can be secured only by the strongest candidates. So far as possible a full and accurate estimate of each applicant's merits and defects is furnished. The primary obligation of the committee is to children who are to be taught rather than to students in need of positions. If the committee has a first class teacher to recommend, records sent to school boards or superintendents indicate specific qualities of strength. If it proves impossible to furnish an entirely satisfactory applicant, a frank statement of qualifications is made. Until the supply of strong teachers more nearly equals the demand many schools will be confronted with the unfortunate necessity of choosing among several more or less unsatisfactory applicants, concerning each of whom trustees are entitled to complete and unbiased professonal information.

For students who have attended the college but a short time,

the committee can make only a statement of academic standing, and in the case of experienced teachers, pass on to inquiring school officials any credentials the applicant may possess. The mere fact that a teacher has spent a few months at the Normal College should not be accepted as evidence of professional fitness for a teaching position. Neither the committee nor members of the faculty write "general recommendations" to be carried by the applicant; either the committee or members of the faculty will reply to specific inquiries concerning the fitness of any student for a given position or kind of work.

HIGH SCHOOL SCHOLARSHIPS

In order to promote the attendance of students of ability and promise upon the several institutions of the University of Montana it is the declared policy of the State Board of Education to provide for the awarding of scholarships to be known as High School Honor Scholarships to graduates of the accredited public high schools of the state.

The principal of each fully accredited high school in the state may nominate from each year's graduating class from one to four members, depending upon the size of the class (but not more than two for any institution), to be the recipients of high school honor scholarships. These scholarships exempt the holders from the payment of customary fees in any of the institutions of the University of Montana. Blanks for the nomination of scholars, with detailed statement of conditions, will be furnished to the principals.

Any scholarship will be valid only so long as the holder is in attendance upon some regular course leading to graduation, and maintains a standard of scholarship and regularity of attendance satisfactory to the faculty of the institution of the University of Montana at which he is in attendance.

AGRICULTURAL CLUB SCHOLARSHIPS

Upon notice from the State Leader of Boys' and Girls' Agricultural Clubs of the awards of the annual club contests, the Chancellor will authorize the issuance of Agricultural Club Scholarships to the winners of first place in any agricultural club contests in any county in Montana, and to winners of first, second and third places in the state agricultural club contest. These scholarships exempt the holders from the payment of the customary fees in any of the institutions of the University of Montana.

MONTANA FEDERATION OF WOMEN'S CLUBS SCHOLARSHIPS

Upon the nomination of the officers of the Montana Federation of Women's Clubs, the State Board of Education has authorized the award of one scholarship each year in each institution of the University. The holders of such scholarships are exempted from the

payment of all customary fees, except the special tuition fees in music. They are expected to make the required course deposits.

The Federation of Women's Clubs assumes the payment of expenses for board, room rent, and necessary books.

LOAN FUNDS

GENERAL UNIVERSITY STUDENT LOAN FUND

The Montana Bankers' Association and the Alumni of the University of Nebraska residing in Montana, have each established loan funds which are available for students in the junior and senior classes of any of the institutions of the University of Montana, who are unable to continue their studies without financial aid, and are satisfactorily recommended as to character and scholarship by the dean or director of head of the department in which the applicant's major work is done. The loan to any one student is limited to two hundred dollars during his course, and not more than one hundred dollars in any one year. Loans must be repaid within one year from the time of borrowing, or, in exceptional cases, one year after graduation. Loans bear two per cent interest. Application blanks and a statement of detailed regulations governing these loans may be obtained from the president.

SHAKESPEARE LOAN FUND

The Shakespeare Club is the oldest literary organization in Dillon; it is composed of women who reside in this vicinity. They have generously provided a fund to assist senior students unable financially to meet all the expense of attending college. Loans are made to worthy students in accordance with regulations approved by the Club. Applications for loans should be made to the president of the Normal College, who acts as treasurer of the fund.

STATE NORMAL COLLEGE ALUMNI LOAN FUND

A fund has been provided by graduates of the State Normal College for the purpose of assisting students who are unable to continue their studies in the senior year without financial aid. The fund will assist two students and may be obtained under the same conditions as indicated in the statement of the Shakespeare Loan Fund.

THE SAMUEL P. WELLS LOAN FUND

This fund was established by Samuel Pitts Wells, a graduate of this institution, class of 1907, for the purpose of aiding worthy students to complete a course in the Normal College.

This fund will be available for those in the junior or senior year who are in need of financial assistance and particulars in regard to it may be obtained by addressing an inquiry to the president of the Normal College.

THE TEACHERS' SERVICE DIVISION

This department includes the various phases of extension work. The activities which will most probably interest teachers are the package library, extra mural group study classes and correspondence study.

PACKAGE LIBRARY

Much of the best material is in pamphlet form and as such is not available to most teachers. These bulletins and pamphlets have been collected and organized into packages which will be loaned to teachers. The only cost will be postage both ways. List of "libraries" will be sent upon request.

CORRESPONDENCE STUDY COURSES

Credits

All courses completed by correspondence study are given the same credit as if taken in residence at the State Normal College. The amount of credit is indicated in the list of courses in the bulletin.

Second, first and professional grade certificate subjects with the exception of reading, spelling and grammar may be completed by correspondence. High school work may also be completed in this way.

In some courses, Reading Circle books are used as texts. In these, Reading Circle credit will be given.

Expense

The fee for correspondence work is $2.50 per credit, payable when application for the course is made. This fee includes postage upon lessons returned by the College, the student paying postage upon all lessons sent in. Textbooks must be supplied by the student. No fee is refunded because of a student's failure to complete the work for which he is registered. If an application for correspondence work is not approved by the State Normal College, the fee will, of course, be returned to the applicant. Lists of books used will be sent when application is received. For further information send for correspondence study bulletin.

ORGANIZATION OF INSTRUCTION

Courses required for the diploma are listed on page 19 and in the pages which follow. Aside from the few restrictions indicated students are free to choose any elective work. Second year students are frequently able to discover fields in which their training is defective and to choose electives most needed or those most closely related to the work of grades in which they expect to teach.

Courses of Instruction

AGRICULTURE

PROFESSOR LEE R. LIGHT

1. Agriculture. 4 cr. Elective. Autumn, spring, summer.

A study of elementary general agriculture with the purpose of preparing teachers to present the subject in rural schools. The State rural school course of study is carefully considered.

ARITHMETIC

INSTRUCTOR MABEL KELLY

1. Arithmetic. 4cr. Required. Autumn, winter, spring, summer.

Problem solving with emphasis upon method; examination and evaluation of drill devices and number games; use of standard tests and measurements of attainment; observation of lessons in the training school; use of the state course of study.

2. Theory of Arithmetic. 2 cr. Elective. Spring.

History of number and arithmetic development from the abacus stage; comparison of courses of study; minimum essentials and eliminations.

3. Junior High School Mathematics. 3 cr. Elective. Summer.

Organization of Junior High School Mathematics; comparative study of Junior High School textbooks.

4. Trigonometry, Plane and Spherical. 4 cr. Winter.

DRAWING AND HANDWORK

INSTRUCTOR OLLIE E. RAGON

1. Public School Drawing. 4 cr. Required. Autumn, winter, spring, summer.

The elements of drawing; blackboard illustrative drawing; materials, course of study and methods adapted to use in grade and rural schools; observation of drawing classes in the training school; poster and drawing suggestions of the state course of study.

2. Blackboard Sketching. 2 cr. Elective. Winter, summer.

Designed to show the value of blackboard drawings and diagrams in the teaching of all school subjects and to give teachers confidence in their own ability in this field.

3. Poster Design. 3 cr. Elective. Autumn, summer.

Prerequisite drawing "course one" or its equivalent.

4. Elementary Mechanical Drawing. 3 cr. Elective. Spring.

Development of necessary geometric constructions; free hand lettering.

5. Primary Handwork. 2 cr. Restricted elective. Autumn, summer.

Handwork problems of state course of study in primary grades.

6. Intermediate Handwork. 2 cr. Restricted elective. Winter summer.

Handwork projects suggested in state course of study for intermediate grades.

7. Manual Training. 2 cr. Restricted elective. Spring, summer.

Woodwork, use and care of tools, mechanical problems and projects.

EDUCATION

PROFESSORS ROBERT CLARK, MARGARET CRAIG CURRAN, SHELDON E. DAVIS, GRANT E. FINCH, LEE R. LIGHT
ASSISTANT PROFESSOR ELEANOR TROXELL
INSTRUCTORS NINA M. NASH, OLIVE ROBERTS

1. Psychology. 4 cr. Required. Autumn, winter, summer.

A general course fundamental to an understanding of all work in education involving method, course of study, or management of pupils. Mr. Clark.

2. Principles and Technique of Teaching. 4 cr. Required. Winter, spring, summer.

Prerequisite a course in psychology. This course is devoted primarily to the teaching phases of school work. The general aims of education; the pupil as the subject and the curriculum as the subject matter of education; enrichment, elimination, local and general elements, minimum essentials, drill, instruction, appreciation, development, assignment, study, the recitation; the standard test idea and familiarity with use of a few best known tests. Classroom procedure observed in college and training school classes. Mr. Clark, Mr. Davis.

3. Administration and Management. 4 cr. Required. Autumn, winter, spring, summer.

Administrative terminology; school management and law. Mr. Light.

4. Observation. 2 cr. Required. Autumn, winter, summer.

By means of typed syllabi including outlines, suggestions, questions, problems and observation projects, each student is given opportunity to apply principles and standards presented in preceding courses through a planned series of visits to the training school. Participation, directed teaching and preparation of lessons plans insure acquaintance with the teaching problems of succeeding courses. Mr. Finch, Miss Nash, Miss Troxell, Miss Roberts.

5. Directed Teaching. 8 cr. Required during second year. Autumn, winter, spring.

Prerequisite, completion of education and subject matter courses of the first year and the work in observation, or equivalent

preparation. Each student teacher does teaching in two of the following departments: kindergarten-primary, primary, intermediate, grammar grade and junior high school, rural. Time allotment and distribution among grades and subjects are planned in view of the professional needs of each student. Observation of expert teaching, immediately relevant professional reading, study of subject matter, participation and plan writing are among the types of activity which may be required in addition to classroom teaching itself. Semi-weekly conferences with training instructors and supervisors. Increased responsibility is given as teaching power develops. Teaching ideals and self-critical attitudes are fostered. Mr. Finch, Miss Nash, Miss Troxell, departmental supervisors, training instructors.

6. Modern Education. 3 cr. Required.

One hour a week during second year. Lectures upon important modern educational movements; discussion of current events in education; each student required to prepare a carefully worked out paper during the year; Rousseau's Emile is read by each member of the class. The historical background is preserved in presenting the evolution of present educational institutions. Mr. Davis.

7. Primary-Kindergarten Method. 4 cr. Winter, summer.

Organization and presentation of subject matter in the primary grades. The problems peculiar to teaching children the beginnings in each fundamental subject. General outline of the state course of study for the first three grades. Comparison and criticism of textbooks. Miss Troxell, Miss Roberts.

8. Intermediate Method. 4 cr. Winter, spring, summer.

Transition from primary to intermediate work; organization and presentation of subject matter in grades four, five and six. Examination, criticism and effective use of the adopted textbooks; the state course of study. Miss Nash.

9. Grammar Grade Method. 4 cr. Winter, summer.

Special problems in organization and presentation of subject matter in grades seven and eight. Economical use of the adopted textbooks and the state course of study. Special method studies in typical subjects. Mr. Finch.

10. Rural School Method. 4 cr. Autumn, winter summer.

Presentation of subject matter in all grades emphasizing applications to rural problems and conditions; Montana course of study, the alternation plan and use of adopted textbooks; devices to insure motivation of rural school work. Mr. Light.

11. Child Hygiene. 3 cr. Required. Autumn, winter, spring, summer.

Summary of rudimentary facts of physiology necessary for general understanding of the principles of hygiene, sanitation and health control; public provisions for safeguarding health. The state course of study in hygiene and physiology. Mr. Clark

13. History of Education. 4 cr. Elective. Summer.

Significant contributions of Greek, Christian, monastic, scholastic and humanistic education; the education of chivalry; the teaching congregations, rise of cities, guilds, apprenticeship and the beginnings of modern public education; philanthropy in education, education in the United States. Mr. Clark.

14. Educational Psychology. 4 cr. Elective. Summer.

Study of inborn tendencies; responses, interests and capacities; the learning process and methods of learning; the psychology of play and character formation; experimental and statistical method. Mr. Clark.

15. Supervision of Instruction. 4 cr. Elective. Summer.

An advanced course in supervision for experienced teachers Miss Troxell.

16. Kindergarten-Primary Curriculum. 2 cr. Elective. Winter, summer.

Survey of primary and kindergarten curricula; study of kindergarten children; home, community and group interests in relation to curriculum; Miss Troxell, Miss Roberts.

17. Educational Measurements. 2 cr. Elective. Summer.

Methods used in establishing standards of public school attainment; advantages of scientifically derived norms; school surveys as applied to instruction. Mr. Davis.

18. Kindergarten Games. 2 cr. Elective. Autumn, summer.

Psychology of play; schoolroom and playground games; practice in directing the games of kindergarten and primary children. Miss Troxell, Miss Roberts.

19. Kindergarten Literature. 4 cr. (two credits a quarter). Elective. Winter, spring.

Taken in connection with kindergarten teaching and participation. Intensive study and use of literature suited to small children. Miss Troxell, Miss Roberts.

ENGLISH

PROFESSORS LUCY H. CARSON, LAURA M. KRESS
INSTRUCTORS TESSIE M. DEGAN, ALICE RUSSELL

1. Spelling. 1 cr. Required. Offered every quarter.

Study of syllabication, accent, pronunciation, phonics and diacritical markings; spelling scales and lists; diagnosis of typical errors; correction of composition and spelling papers of training school pupils; contests, games and other teaching devices exemplified in the work of the course. The state course of study is used. Students whose spelling in their written work persistently falls below the standard of ninety-nine per cent correctness are required to repeat this course until marked improvement results. Miss Russell.

2. Grammar. 4 cr. Required. Offered every quarter.

Technical grammar based upon minimum essentials. Students become familiar with the grammar outline in the state course of study and with textbooks used in Montana. Observation of lessons in upper grades of the training school. Miss Russell.

3. Composition. 3 cr. Required. Winter, spring, summer.

Prerequisite a course in grammar. Oral and written exercises; sentence sense and a paragraph development; correction of errors, spoken and written; grading of papers from the training school; observation visits to language and composition classes in primary and intermediate grades of the training school. The state course of study in language is used. Miss Carson.

4. Reading and Literature in Lower Grades. 4 cr. Autumn, winter, summer.

Students preparing to teach in primary or lower intermediate grades elect this course instead of course five. The general content is the same as that of course five with specific applications to work of the first three grades. Story telling adaptations of classics for telling to young children; methods of teaching beginners to read; word and phonic drills, use of blackboard and flash cards. Observation lessons in lower grades of the training school. Miss Russell.

5. Reading and Literature in Upper Grades. 4 cr. Spring, summer.

Each student expected to read all basic and supplementary selections listed in the literature and reading outlines of the state course of study; oral and silent reading; rate of reading, standards and measurements; developing a taste for reading and the reading habit. Observation lessons in upper grades of the training school. Miss Russell.

6. Advanced Composition. 2 cr. a quarter. Elective.

Conducted in connection with the school paper. Student editors and their assistants study a textbook in journalism, write and secure contributions, arrange material, read proof, write headlines, and assist in the general management. Miss Degan.

8. American Literature. 4cr. Elective. Autumn, summer.

Colonial and first national period, including Irving, Poe, Bryant, and Cooper. Miss Carson, Mrs. Kress.

9. American Literature. 4 cr. Elective. Winter, summer.

Poets and essayists of the second national period: Longfellow, Whittier, Emerson, Lowell, Holmes, Lanier and Whitman. Miss Carson, Mrs. Kress.

10. American Literature. 4 cr. Elective. Summer.

Prose writings of the second national period and recent literature. Rapid reading of many works from Hawthorne to the present. Miss Carson, Mrs. Kress.

11. English Literature. 4 cr. Elective. Spring.

A brief preliminary survey; types considered—the epic, the ballad, the tale, and the metrical romance. A detailed study of relatively few works, supplemented by rapid reading of many others, with discussion and reports. Miss Carson.

12. English Literature. 4 cr. Elective. Summer.

The drama and lyric poetry. ((a) Intensive study of selected Elizabethan and modern English dramas; the reading of many other dramatic works; (b) Study of lyric forms, metrical poems selected from the works of Burns, Wordsworth, Shelley, Tennyson and Browning. Miss Carson.

13. English Literature. 4 cr. Elective. Summer.

English prose, particularly fiction, with consideration of the sketch and the essay; typical works, including representative contemporary novelists. Miss Carson.

14. Modern Drama. 4 cr. Elective. Winter.

A stupdy of contemporary drama. Prerequisite, the required courses in English. Miss Carson.

15. Contemporary Fiction. 4 cr. Elective.

English and American fiction writers of the last fifty years, including Meredith, Hardy, James, Butler, Gissing, Moore, Conrad, Wells, Chesterton, Galsworthy, Bennett, Phillpotts, Wharton, Sinclair. Survey of English fiction.

HISTORY AND GOVERNMENT

PROFESSOR F. H. GARVER

1. American History. 4 cr. Autumn, winter, summer.

Required for students preparing to teach in primary or intermediate grades. An endeavor to estimate the debt which our country owes to the civilization of Greece, Rome, Europe generally, and especially England; the state course of study, the literature of the subject necessary to successful teaching of history in grades below seventh. Mr. Garver.

2. American History. 4 cr. Offered every quarter.

Required for students preparing to teach grammar grades.

A study of the history of the United States during the National period. The state course of study for the seventh and eighth grades will be reviewed in class, and attention given to outlining history for teaching purposes. Mr. Garver.

3. American Government. 4 cr. Required. Winter, spring, summer.

The elements of political science; actual workings of the Federal government; State and local government of Montana. Emphasis upon institutions developed during the last two decades; community civics in connection with study of the government of Montana. Mr. Garver.

4. Economics. 3 cr. Required. Autumn, spring.

A study of the general principles of economics theory and of important economic and industrial problems. Mr. Garver.

5. Sociology. 3 cr. Elective. Summer.

Introduction to the theory of society and of social development; an endeavor is made to direct students' attention to the large amount of magazine space devoted to sociological topics and to develop a critical and discriminating attitude in evaluating pro-proposed remedial or ameliorating measures. Mr. Garver.

6. European History. 1500-1789. 3 cr. Elective. Autumn.

After estimating the contributions of ancient and medieval history to modern, the development of modern nations and conflicting principles of the period will be emphasized. Mr. Garver.

7. The French Revolution and After. 1786-1862. 3 cr. Elective. Winter.

A study of Europe through the French revolution to the middle of the nineteenth century. Growth of the principle of nationality and the rise and spread of democracy. Mr. Garver.

8. Contemporary History. 1862-1921. 4 cr. Elective. Spring, summer.

The aim of this course is to lay foundations for a correct understanding of present events. Mr. Garver.

9. History of Montana. 1 cr. Elective. Summer.

A general course in the history of Montana, designed for teachers, especially those from other states, who are not acquainted with the subject, plans for the study of local history, illustrated with the story of this commonwealth. The events, the literature produced, and climatic and geographic influences are studied; lectures on historical sites of Montana and excursions to Bannack and Virginia City; the use of local history and background in vitalizing instruction. Mr. Garver.

10. Current Events. 1 cr. Elective. Summer.

A study of current events designed to give the student an acquaintance with the best periodical literature dealing with political and economic questions of the day. Plans for relating current events with history instruction. Mr. Garver.

HOME ECONOMICS

ASSISTANT PROFESSOR VELMA PHILLIPS

1. Foods. 3 cr. Elective. Autumn, summer.

A comprehensive course in food preparation, care and serving. Emphasis upon choice of foods, nutriment values, place in diet and relative costs. Preparation of school lunches and food for the sick. Miss Phillips.

2. Clothing. 3 cr. Elective. Winter, summer.

Choice of clothing, elementary facts and standards of costume

design and textiles from the consumer's view point. Economical and suitable clothing for school children. Miss Phillips.

3. Food Principles. 3 cr. Elective. Spring.

Prerequisite a course in chemistry. Chemical nature and nutritive functions of foods, and detailed study of nutrition. Economy in meeting needs of the family. Miss Phillips.

4. Household Management. 3 cr. Elective. Autumn.

Origin of the family and home; relation of home to community; house sanitation; management of time and income, the budget. Miss Phillips.

5. The Teaching of Home Economics. 3 cr. Elective. Summer.

Survey of subject matter, comparison of grade and junior high school curricula, equipment of home economics laboratory and management of laboratory classes. Miss Phillips.

LIBRARY ECONOMY

INSTRUCTOR LILIAN R. FREE

1. Library Economy. 1 cr. One quarter. Required. Offered every quarter.

Relation between the library and the school. The use and value of the card catalog, dictionaries, encyclopedias and reference books in general use; book selection and book buying; preparing books for the shelves; classification, accessioning, cataloging; reference work, preparation of bibliography; selection and care of public school libraries. Mrs. Free.

MUSIC

INSTRUCTOR PAULINE VAN DE WALKER

1. Public School Music. 3 cr. Required. Offered every quarter.

The elements of music, rote singing and sight reading; acquaintance with songs suitable for each grade of the elementary school; direction of chorus work and observation of music classes in the training school. Miss Van de Walker.

2. History of Music. 3 cr. Elective. Autumn, summer.

A study of the development of music. Vocal and instrumental illustrations of the important forms of music; special attention to present tendencies among living composers. Miss Van de Walker.

3. Music Appreciation. 3 cr. Elective. Winter, summer.

A course designed to develop power of intelligent listening. Distinction between good and bad music; a study of the value of music in all phases of life. The leading forms of musical composition analyzed. Extensive use of the victrola to illustrate all studies. Miss Van de Walker.

4. Voice Culture. 3 cr. Elective. Spring.

Study of care and correct use of vocal organs, proper breathing

and effective enunciation. Tone study, placing of tones. Study of ensemble singing and solo work. Miss Van de Walker.

5. Chorus Singing. Elective.

The chorus meets at least twice a week. For satisfactory work a half credit is given each quarter; no credit is recorded for less than two terms of participation in the chorus. Miss Van de Walker.

INSTRUMENTAL MUSIC

INSTRUCTOR MARGARET P. TELLO

It is the aim of the department to lay a correct and thorough foundation, and so to train pupils that they may be able to portray the finer feelings which are the swaying forces of all good performances.

Students' recitals are given at appropriate intervals, thus giving the pupil opportunity to become accustomed to public performances.

An extra charge is made for all instrumental instruction and voice culture.

TERMS

A course of 12 lessons in piano.....$12.00
A course of 12 lessons in voice culture.....$12.00
A course of 12 lessons in harmony (in class).....$12.00
A course of 12 lessons in organ.....$12.00
A course of 12 lessons in pipe organ.....$12.00

Tuition for these courses is payable in advance and no deduction can be made for lessons missed unless in case of protracted illness or unless arrangements are made with the instructor. A large stock of music covering all requirements is kept on hand to be sold by the instructor. Accounts for this are mailed the first of each month. Rate for piano rental is $1.00 per month, one practice period per day.

Piano may be taken as part of a regular student program in accordance with the provisions noted below:

1. For one private lessons and five hours practice per week, two credits per quarter.
2. For two lessons and ten hours practice per week, four credits per quarter.
3. For two lessons per week in harmony, one credit per quarter.
4. For two lessons per week in ensemble playing, one credit per quarter.

Harmony and ensemble playing may be elected only by advanced students. No advanced standing will be given for piano lessons unless taken for credit in an institution of college grade. No student may earn more than six credits in instrumental music during any quarter, and a total of twelve credits may be elected. Credits

earned during a nine weeks summer session must conform quantitatively with the foregoing standards.

Students may continue as heretofore to elect piano without college credit.

PENMANSHIP

INSTRUCTOR LUCRETIA SNYDER

1. Penmanship. 1 cr. Required. Offered every quarter.

Palmer system used. Methods of teaching consciously exemplified and studied. Observation of penmanship classes in the training school and grading of pupils' written work; the state course of study in penmanship. Students whose written work persistently falls below the standard of the Ayres scale quality 70 (Thorndyke eleven, Palmer eighth grade standards) will be required to repeat this course. Miss Snyder.

PHYSICAL EDUCATION

INSTRUCTOR HELEN W. JOLLEY

1. Physical Education. Two quarters required during the first year.

Outline of physical exercises and games suitable for primary, intermediate and grammar grades of the public school. Participation in games and contests which students may later introduce and supervise. Gymnasium suits required. Mrs. Jolley.

2. Physical Education. Two quarters required during the second year.

Playground work studied, participated in, and directed by members of the class. Student teachers conduct gymnasium classes and direct playground and indoor games in the training school. Lectures, readings, and preparation of notebook descriptive of games suitable for public school use. Mrs. Jolley.

3. Pageantry and Advanced Dancing.

May be elected instead of more elementary course by those especially proficient as demonstrated by high standing in physical education classes. Members of this class participate in organization of May Day Festival. Mrs. Jolley.

SCIENCE

PROFESSOR J. FORD McBAIN

1. Geography. 4 cr. Required. Offered every quarter.

General principles; geography of the United States through type studies and problems; detailed study of Montana; use of contour and relief maps, the blackboard, globes, pictures, stencils and other aids in teaching geography; geographical readers and supplementary material; the adopted textbook and the state course of

study; observation lessons upon the use of aids and devices in the training school. Mr. McBain.

2. Commercial and Industrial Geography. 3 cr. Elective. Winter, summer.

Study of the influence of geographical conditions upon the development of industry and commerce; geographic control of industry, trade, raw material and food supply. For teachers in grammar grades and junior high school. Mr. McBain.

3. Physiography. 4 cr. Elective. Spring, summer.

Laboratory subject. Forms of the earth's surface and processes by which they are changed; atmosphere and climate; influence of geographical factors upon the distribution of peoples, modes of living, industries and institutions. Field trips to illustrate methods of utilizing the opportunities of studying physical geography. Mr. McBain.

4. Physics. 6 cr. Two quarters work. Elective. Autumn.

Laboratory subject. A college course for students who have not had physics in the high school. Special emphasis upon application of the principles of physics in teaching grade and rural school subjects. Mr. McBain.

5. Chemistry. 6 cr. Two quarters work. Elective. Autumn, winter.

Laboratory subject. Fundamental principles and laws of chemistry, metallic and non-metallic elements. Special attention to chemical processes involved in common things of every day life. Mr. McBain.

6. General Science. 6 cr. Elective. Winter, spring, summer.

Prerequisite high school or college course in physical and natural science. A study of physical and natural sciences and their application in teaching subjects of the elementary school or junior high school curriculum. List of projects for pupils in grades, use of local material, visits to the training school, field trips, examination of textbooks in general science. Mr. McBain.

7. Geography of Europe. 3 cr. Elective. Autumn, summer.

Geography of Europe through type studies and problems, with special attention to geographical result of the great war, new countries, and boundaries, with a comparison of industrial conditions before the war and at present. Prerequisite Geography I. Mr. McBain.

The Summer Session

The summer session differs from the terms of the regular school year in the greater number of courses offered, the increased attendance, and in the character of the student body which is composed largely of experienced teachers. A training school is maintained. The work of the summer school is regularly organized, the amount of credit per week being the same as during the other terms. A series of lectures by prominent educators is a valuable feature of the summer school.

The summer session of 1921 continued nine weeks at Dillon and for terms of equal length at the regional schools for teachers held at Lewistown and Miles City. The summer sessions of 1922 held at the same points will be nine weeks in duration.

Register of Students
1921-1922

SECOND YEAR STUDENTS (College Sophomores)

NAME	Town	County
Adams, Gladys	Columbus	Stillwater
Arrison, Ruth	Rudyard	Hill
Baldwin, Carrie	Stevensville	Ravalli
Beatty, Audrey	Portage	Cascade
Beckley, Lily	Klein	Musselshell
Blakely, Bessie	Missoula	Missoula
Buzard, Leonora	Bozeman	Gallatin
Casey, Agnes	Butte	Silver Bow
Casserly, Frances	Butte	Silver Bow
Chellquist, Florence	Great Falls	Cascade
Connell, Kathleen	Butte	Silver Bow
Covington, Marian	Augusta	Lewis and Clark
Creveling, Ruth	Cascade	Cascade
Doran, Abigail	Billings	Yellowstone
Dunton, Dorothy	Rapelje	Stillwater
Fausett, Ruth	Stevensville	Ravalli
Fleming, Gladys	Corvallis	Ravalli
Geary, Hilaria	Helmsville	Powell
Ginste, Mrs. Margaret	Great Falls	Cascade
Giudici, Catherine	Dillon	Beaverhead
Graves, Margaret	Polson	Flathead
Halbert, Beatrice	Bercail	Wheatland
Halbert, Grace	Bercail	Wheatland
Hall, Winifred	Cascade	Cascade
Hunt, Catherine	Butte	Silver Bow
Ibalio, Francisco	Pasuquin, P. I.	
Kiley, Muriel	Anaconda	Deer Lodge
Lee, Margaret	Butte	Silver Bow
Listerud, Edna	Wolf Point	Roosevelt
Lyle, Kathleen	Helena	Lewis and Clark
McCracken, Alice	Great Falls	Cascade
MacDonald, Irene	Philipsburg	Granite
MacFarlane, Ruth	Poplar	Roosevelt
McNeil, Elsie	Wolf Point	Roosevelt
McNicholas, Mary	Anaconda	Deer Lodge
Metcalfe, Gladys	Finn	Powell
Metcalfe, Florence	Finn	Powell
Mitchell, Ellen	Norbert	Chouteau
Nattrass, Miriam	Dillon	Beaverhead
O'Brien, Monica	Hardin	Big Horn
O'Shea, Marion	East Helena	Lewis and Clark
Parker, Alta	Dillon	Beaverhead

University of Montana 11

PUBLICATIONS *of* THE UNIVERSITY *of* MONTANA

Copies of the several series of the University of Montana Bulletin, of the University of Montana Curicular, and of the University of Montana Syllabi may be obtained upon request from the President of the particular institution concerned. Copies of the University of Montana Studies and of the General Series of the Bulletin and of the Circular will be furnished from the office of the Chancellor of the University.

I. UNIVERSITY OF MONTANA BULLETIN

Each series of the Bulletin is issued quarterly, and contains annual reports and catalogues.

1. General Series (Office of the Chancellor).
2. State University Series.
3. College of Agriculture and Mechanic Arts Series.
4. Experiment Station Series.
5. Normal College Series.
6. School of Mines Series.
7. Alumni Series.

II. UNIVERSITY OF MONTANA CIRCULAR

Each series of the Circular is issued at irregular intervals and contains various special announcements.

1. General Series (Office of the Chancellor).
2. State University Series.
3. College of Agriculture and Mechanic Arts Series.
4. Experiment Station Series.
5. Extension Service Series.
6. Normal College Series.
7. School of Mines Series.

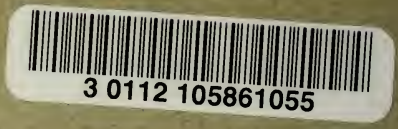

III. UNIVERSITY OF MONTANA STUDIES

Issued quarterly, and contains the contributions resulting from the investigation and research in the several departments and divisions of the University, excepting those of the Agricultural Experiment Station, which are issued in the Bulletin.

IV. UNIVERSITY OF MONTANA SYLLABI

Each series contains outlines and syllabi of certain courses of instruction given at the several institutions.

1. State University Series.
2. College of Agriculture and Mechanic Arts Series.
3. Normal College Series.
4. School of Mines Series.
